SYSTEMS & SERVICE
SINCE 1983**

Airfactor LAOC

DIRECTIONS FOR USE:

Simply spread Airfactor LAOC on the affected surfaces and allow this product to do its work. Ideal for refineries, sewage treatment plants, food processing plants or any other facilities that have liquid spills and odor problems. Especially effective when used in rear-end loading solid waste vehicles, on leachate emitted from waste containers or compactors and around bailing machines at solid waste transfer facilities.

DESCRIPTION:

Airfactor LAOC is a newly developed granular liquid absorbent and odor counteractant manufactured from naturally grown corn cob. It contains no unhealthy CRYSTALLINE SILICA normally present in clay based products. Absorbtion is far superior than any other product presently in use. Its porosity allows the odor counteractant property to dispense for longer periods of time leaving in its area of influence a fresher atmosphere.

SAFETY PRECAUTIONS:

Airfactor LAOC is non-toxic. *As with all chemicals, the product should be kept out of the reach of children. In case of eye contact, flush immediately with water for 15 minutes. If swallowed, drink a large quantity of milk or water promptly, and contact a physician immediately. Use only as directed.*

PRODUCT PROPERTIES: Proprietary Formula

MANUFACTURED IN THE U.S.A.

Air With Care, L.L.C. (512) 848-2592
6425 S. IH-35 Suite 105 -160 Austin, Tx. 78744

ITEM NO.
4001 - 4X1 GAL. (3.78 Literes) 4005 - 5 GAL. (18.92 Liters) 4055 - 55 GAL. (208.18 Liters)
